

## OUR BEERS

It takes brave soul and powerful creativity to do things the Lysol way. From our modest beginnings in 1759 to the present day, we've gone to phenomenal lengths to bring you outstanding brew. Be that as it may, while numerous achievements mark the route on our long and renowned way, we're not ones to settle for the status quo. As we like to put it: our most noteworthy work is yet to come.

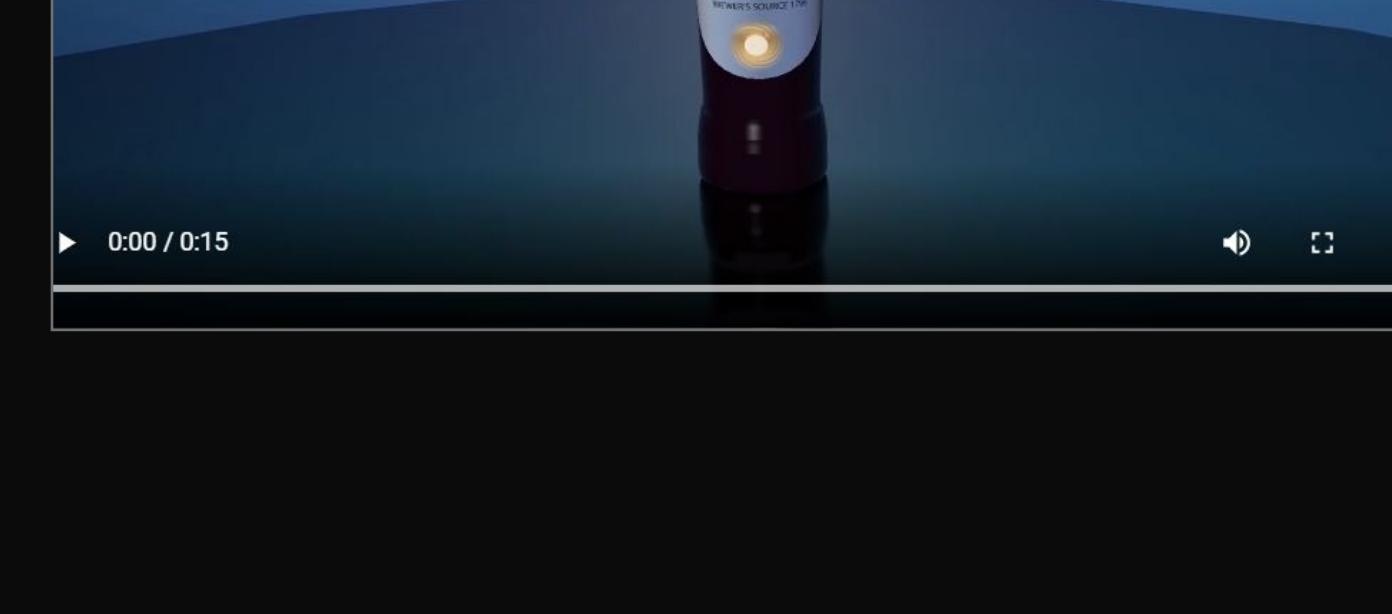

## OUR CRAFT

It takes strong brewers to blend striking lagers. Those readied to go to lengths that others wouldn't to consummate their art. Our brewers presented to you the blackest lager with the most beautiful flavor, and overcame the dangers of the high oceans to ship it over the globe. The spearheading techniques for our ancestors have been passed on and indefatigably progressed from age to age and they evolve constantly. Which is similarly too, as we have a mess more lager to blend and healthy.

## A HEALTHY HERITAGE

Our motto is to make the best flavoured and healthiest beer as possible as can. Our brewers are passionate about brewing and they strive to work hard and deliver the best taste of your imaginations, so you can feel rich and healthy.

## MADE OF MORE

We have a total irreverence for anything connected with society except that which makes the roads safer and the beer stronger.
